- 🏠 **Address:** Da Nang, Viet Nam

👋 Brief introduction

Hi, I'm a front-end developer who can code all day without getting tired.

I started learning to code one year ago, and it only took six months for me to make money from my programming skills. I also have articles about technology that get more than 10,000 views.

In the past year, I have been very focused on learning front-end web programming. Now I am very confident that my abilities can meet your requirements.

💼 Projects

Shopee clone

This is a project to clone the user page of the e-commerce platform [Shopee](#).

Technologies used: REST API, ReactJs, Typescript, Tailwindcss, React Router, React Hook Form, Yup, React Query, Vite, Vitest, Storybook, ESLint, Prettier, React Helmet

Functions include:

- Manage authentication with JWT (automatic token refresh applied)
- Use the Yup and React Hook Form to validate the form.
- Smart Pagination, Filter, and Product Search
- Incorporate state into the URL to easily share results across devices.
- Asynchronous state management with React Query
- Code Splitting
- Improve performance by optimizing build file size analysis.
- SEO with React Helmet
- Separate the private and public routes.

- Unit Test
- Manage components with Storybook

 **Webiste:** <https://vercel.com>

 **Account for testing:** user3@gmail.com / hackerlord

 **Github:** <https://github.com>

Portfolio

This is my personal website to introduce myself, which I designed and coded myself. I also use this to post my blogs.

Technologies used: ReactJs, Create React App, Styled Component, ESLint, Prettier, React Helmet, React Router

Functions include:

- Fully responsive website
- Scoped CSS with Styled Component
- Linting with Prettier and ESLint
- Improve SEO with React helmet
- React Context is used to manage state.
- Code Splitting

 **Webiste:** <https://vercel.com>

 **Github:** <https://github.com>

Booking Hotel Template

A fully responsive website that I coded from a design file on the internet. This mini-website has 4 pages.

Technologies used: HTML5, SASS, Bootstrap 5, Javascript

Functions include:

- Fully responsive website
- Semantic HTML
- Mega menu dropdown

 **Webiste:** <https://vercel.com>

 **Github:** <https://github.com>

Online Shop Template

This was one of the first projects I did when I first learned web programming. I don't use any libraries, just use HTML and CSS to code a fully responsive website.

Technologies used: HTML5, SASS, Javascript

Functions include:

- Fully responsive website
- Semantic HTML

 **Webiste:** <https://vercel.com>

 **Github:** <https://github.com>

Skills

Programming Languages

Javascript, TypeScript.

I'm quite confident that I can catch up with other languages when needed very quickly.

Web Front-end Technologies

React, React Query, RTK Query, Redux, Styled Components, TailwindCss, Sass, Webpack, Axios, Vite, Vitest, Mock Service Worker, HTML5, CSS3, SEO.

Web Back-end Technologies

- Protocols: REST, HTTP(S)
- Frameworks/Libraries: Node.js, Json server
- Cloud Services: Vercel, Netlify

Dev Tools

Git, Postman, Lighthouse, React Developer Tool, Redux Dev Tool, React Query Dev Tool, Github, Gitlab, Figma, VS Code, Bash

Industrial & Interpersonal Skills

Write, Present, Teamwork, SEO, digital marketing.

Honors & Awards

- End of term scholarship (2022)
- First semester scholarship (2021-2022)

Education

Software Engineering

Danang University of Science and Technology - Information security, 2021 - 2025

Languages

- **English**
Read and understand specialized documents. Good communication.
- **Vietnamese**
Native speaker.
